DETAILED ACTION***Drawings***

The proposed drawing correction and/or the proposed added sheet of drawing, filed on 4/21/03 has been disapproved because they introduce new matter into the drawings.

37 CFR 1.121(f) states that no amendment may introduce new matter into the disclosure of an application. The original disclosure does not support the showing of film circuit 401 and power 430 as illustrated in the newly added Figure 4B. Figure 4B is also includes new matter by eliminating the original layer 411 from the printhead 100. Although the original disclosure also mentions and illustrates a separation barrier 408, resistor 112, and via 406, it does not describes or illustrates those elements as shown in the newly added Figure 4B. For example, the original Figure 4 illustrates the separation barrier 408 as a portion of layer 407 while newly added Figure 4B illustrates it as an empty space. Furthermore, the original Figure 4 illustrates the resistor 112 as a portion metal 407 while Figure 4B illustrates it by a box extended from the bottom of layer 407 to top of layer 400. It is noted also that the original Figure 4 illustrates the via 406 as a portion of barrier 375 while the newly added Figure 4B illustrates it as something encompasses a portion of the layers 400, 407, 409.

Specification

Art Unit: 2861

The amendment filed 4/21/03 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the description (see page 7 of the amendment) regarding to new added Figure 4B; the metal 400 which can be Aluminum; resistor 112 is defined by a portion of the top conductive metal 400 and the bottom metal barrier 407; the separation barrier 408 is defined by a bottom portion of the power via 406 that is adjacent to the first metal layer 402; the power source 430, which derives power from the power bus 128.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-20 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claims contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventors, at the time the application was filed, had possession

Art Unit: 2861

of the claimed invention. The amended independent claims are directed to the newly added Figure 4B and its newly added description in the specification that have been considered as new matter as explained above. The dependent claims are also rejected because they depended on the rejected independent claims.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new grounds of rejection.

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
